

**FLORISTRY**

*for*

**HOBBYISTS**

# WHAT WILL I LEARN?

This course is an interactive, hands on experience where we will discuss and create lots of designs that can be used with a variety of flowers, to fill your house with whenever you wish!

You will have more of an understanding of the mechanics of floral design, and which colour combinations to go for, and what to avoid!

You will never again receive the gift of flowers and wonder how in the world you can arrange them nicely!

# THE THEORY

As important as the practical, hands on stuff, is the theory and reasoning behind everything that we do. That way we can truly learn and develop skills to use and enjoy at home!

We will focus on:

- Flower names and their treatment
  - Tools and equipment
  - Colour and texture combination

# THE PRACTICAL

- Bouquet in a vase (all round design)
- Bouquet in a vase (forward facing design)
- Table arrangement (low for in the centre of a table)
- Linear arrangement (forward facing arrangement)
  - All round pot arrangement
  - Circlet head dress

*(this specific item list may vary due to floral seasons)*
